

pared to Dr. Kriehn's articles in the 'American Historical Review,' January and April 1902.

I may also be permitted to refer with pleasure to Volume V. of the 'Political History of England/ on the reigns of Henry VII. and Henry VIII., by my friend Mr. Herbert Fisher of New College, Oxford, where he places the survival of Lollard influence in the prominent position which it should hold in English history (*e.g.* pp. 137-139), and shows us the true meaning and character of the Tudor Reformation itself, which partisan writers of both sides have done so much to obscure.

NOTE TO NEW IMPRESSION, 1925

I would call the attention of students particularly to the work of Miss Deaiiesly, Fellow of Newnham College, Cambridge, entitled 'The Lollard Bible/ published by the Cambridge University Press in 1920, on the question of the authorship of Wycliffe's Bible and the attitude of the Church authorities to the possession of the Bible by ordinary laymen in the fourteenth and fifteenth centuries. It is important in view of certain suggestions previously made by Cardinal Gasquet. See below pages 369-370, Appendix notes referring to pages 314 and 342.
